TRIP TO THE RIO NEGRO.

III.

BAHIA BLANCA.

Mr. Goodhall has a neat office with maps and plans of the surrounding estancias. He showed us the camp bought by Sir Horace Rumbold, our late Minister, a snug estancia, four square leagues, and within about fifteen leagues of the town.

It is wonderful to see the number of foreigners who have bought up the lands stretching from Bahia to Azul: ⅔ of the whole camp is in the hands of Britishers, and most of these lands are stocked. There are still many bargains to be had, if people will but leave the pavement of Buenos Aires and go out and see for themselves. Mr Perkins, brother of Mr. Perkins, the eminent exchange and money broker, offered us 1½ league of camp in Naposta, with 4,000 sheep, house, corrales, etc, for $200,009 m|c camp, and $30,000 m|c the sheep. We offered him $100,000 m|c for the land and $25,000 m|c for the sheep, and he has bolted off to see and close the business. Friend Davison, who has money in both pockets, wants to go halves in the business. He speaks nine languages and was born in Yorkshire; so if we make the purchase he is our partner.

We visited Mr. Cerrunti, the Municipal Agrimensor, an Italian gentleman of good family and manners and whose wife is an Italian countess. He came to this place with the Olivieri Brigade, and has lived 25 years in this town, filling posts of great trust and importance, mixed up as he was with the political struggles of the country. He was taken prisoner by Colonel Bernal in the Mitre revolt of 1874 and carried to Buenos Aires, when President Avellaneda at once liberated him. The Italian Government has now named him as Vice-Consul, and a better man for the post it would be impossible to find. He told us all about the last Indian invasion, and gave us many details which we hold for another chapter. Madame Cerrunti is a great musician, and in early life was remarkable for her beauty. She is a lady of high character and beloved by all in the town. Daughter of an Italian banker, she fell in love with our host, and, true to her love, followed his chequered fortunes even to South America. Cerrunti has the polish of Cavour, but his 25 Bahia Blanca years bear their marks. He opened his maps and showed us town sites that for the price of a box of Havannahs we might buy. He showed us where the Southern Railway must go and where the station will stand. He pointed to chacras of 2I squares, which we could call our own for the slight outlay of $5,000 m|c, yet all this did not induce us to become a Bahia-Blancan proprietor. Davison and Kincaid took the most copious notes, and if any of our subscribers feel like becoming a Bahia Blanca purchaser, we recommend our friends to consult Mr. D., who can be found on the Bolsa every day up to 3 o'clock. There is a project to make a new port or new landing place for the town, Davison knows the site. Up to the present no one has bought any land about there, and Mr. Cerrunti assured us that there the railway must make its station, but the first impressions when landing, the crabs, were superior to every influence. We touched nothing in Bahia Blanca, and declined to buy the whole side of one of the principal streets for a mere song. Some years ago there was an English club in the town, and fully 50 of our countrymen supported it: most of them have however left. Those were jolly times. Champagne cocktails and sheepfarming make poor bedfellows. There is no Hotel Oriental here. The Indians and the cocktails triumphed, and few of the English settlers are left: evidently they came before their time. Now things are so changed that there is not a man in the town who can make a cocktail, and our countrymen have become as economical and abstemious as Italians. Great changes, however, await this place—the Railway and the Bank will revive its fortunes.

The town bears the stamp of a penal colony, which it once was. Nature has done much for the place, but man nothing. Spite of everything, we look on it as one of the most rising spots in the Republic.

PARIS LETTER.

(*From our own Correspondent*)

Nov. 23.

Opponents are commencing to find out that it is useless abusing Gambetta: that line of tactics only adds to his popularity and equanimity; Gilbert Martin, who is the most original of caricacurists in this country, represents the premier carrying four despatch boxes in which are contained the Senate, the Chamber of Deputies, the Republic, and his Ministers. And there is much truth in the skit. No hole has been found in his cabinet; the sole charges that can be urged against his nominations are, the youthfulness of the appointed and the humbleness of their origin. But not a finger can be raised against their ability and honorability. Besides, Gambetta wants to train young republicans to statesmanship.

Political warfare is eccentric in France: there are journals of various shades of opinion that preach the necessity of demanding an explanation from the ministry of its policy; the Cabinet desires nothing better than to reply, yet not a lukewarm friend or a fire-eating foe has the courage to use his privilege of deputy, that of popping a question. In his heart, Gambetta must have the sublimest contempt for such Bob Acres; he has settled down in his new palace, the Foreign Office, and is quite at home: he has also made an innovation, that of holding the Cabinet councils after dinner, instead of in the morning.

When the monarchists were in office, they swept away all officials of a republican tint without mercy; the massacre commenced with the humble functionaries. Gambetta has changed all this: he, like Julius Cesar, strikes first at the head. Thus he has superseded the governor of the Bank of France in the twinkling of an eye, who as Senator ever distinguished himself as the opponent of the Republic. The office is important, as the republicans can now count upon greater facility in having their paper discounted. The new governor, it is rumored, intends abolishing the custom of requiring three first-class names on bills; two honest men will suffice to ensure accommodation.

The railway boards are next down on the roster for a clearing out; being state establishments more or less, the government has the right of veto on the nomination of the directors; three names are usually submitted, from which to select. Up to the present, these boards are simply a refuge for used-up politicians; but few bussiness (?) men have seats on the direction; not an engineer can be found among the elect, who all constitute a clique. During the halcyon days of Mac-Mahon I, the railway boards exercised scandalous pressure on their employes to prevent their voting for the republic; they prohibited the sale of the liberal journals at the stalls. Gambetta is now about balancing that account; he intends recasting the directors, and replacing the 'inutiles' by practical men, of administrative talent, and in addition, devoted to the institutions of the country; nay more, the Ministry intends buying the lines and working them for the State. Opinion is not agreed on the wisdom of this step, the scheme is so vast. It would simply mean binding the nation to pay shareholders from 10 to 25 per cent of a rise on their scrip.

It must be a humorous event for the clerks in the Government offices here, on the occasion of a change of ministers to be called together to be introduced to, and make the acquaintance of the new arrival; a good deal of mutual admiration business takes place on such occasions. The Minister of Marine has changed the lip service a little; he assured the boys in blue, with a 'shiver my timbers' emphasis, that he paid very little weight to promises, but would estimate their sincerity by their acts.

Very little is heard of M Grevy; perhaps having nothing more to record respecting him, is why special attention is devoted to his allowing his beard to grow. Louise Michel has not yet got hold of the fact that the shape of the sprouting beard tends to a point resembling that of Henri the Fourth's: were the similarity discovered, that strong minded gal would call a Sunday 'matinee' to denounce him, as she has already done, in the case of Gambetta's Falstaff-stomach. Her indignation assembly of last Sunday was a failure: she lamented that the auditors were ever the same: she complained of receiving hundreds of anonymous letters, urging her to get married, take cold douches, and fix the date of the breaking out of the revolution, which she asserts to be be pending, when petroleum will replace the police, and the ragged red flag the abominable tricolor. She is not as amusing as Rochefort.

At the Elysee a telephonic pipe has been laid drown, connecting the Yellow Salon with the Theatre Francais, the national and the comic operas: henceforth the guests of M Grevy, four at a time, can listen to the representations at these establishments, at a mile distant; the President's study is to be telephonically connected with the Chambers; the Telegraph Company has sent in an estimate to connect all the sub-prefectures with the central prefecture.

MEAT FREEZING

THE HASLAM PROCESS

Midway in the Thames off the town of Gravesend, distinguishable from far in the cold October twilight by her many lighted ports, there lay quietly at moorings last night a magnificent four-masted steam vessel which has just completed an experiment of no little interest to the economical English housekeeper. She is the screw-ship Orient, Captain Hewison, commander, one of the finest of the fleet of the Australian Steam Navigation Company to which she gives her name, Built about two years ago in Glasgow, she measures in length 460 feet, is fitted with engines of 1,000 nominal horse power, and is officialy described as of 5,386 tons register. The Orient, which is provided with all the luxuries and appliances that are expected in these days in ocean steam vessels of the best class, has made the journey from Adelaide to the Thames in just thirty-nine days, carrying 193 passengers besides her crew of 166 men. But what gives her special impor-

tance just now is the circumstance that she is fitted up with new dry-air refrigerators, the patent of Mr. Seale Haslam, of the well-known Derby Engineering Company, and has for the first time brought fresh meat to England by the aid of this ingenious invention. The principle on which the Haslam Refrigerator manufactures cold air will be understood by practical engineers when we say that it is that of surface cooling. Water and air, having entered the machine, the air is compressed at 45 lb. to the square inch, heated to about 280 degrees, then passed through the Refrigerator, and expanded, upon which the volume of cold air, which may even be produced at so low a range as from 40 degrees to 60 degrees below zero, discharges itself continuously into the closed chambers in which the meat or other perishable articles are stored. Its chief feature is the production of a preservative dry air. Another point is that the same degree of cold, we are assured, can be obtained with water taken in at 90 degrees as with water taken in at 50 degress, a matter of obvious importance in ships which have to pass through the tropics. With an engine of 70-horse power, it is stated that a cargo space holding 250 tons of fresh meat can be kept in a continually frozen state throughout the long voyage from Sydney to England, a distance of 13,500 miles. As a fact, the space chartered by the Australian Frozen Meat Company is sufficient for 150 tons, and that is just the quantity now actually aboard, consisting of 3,171 carcasses of sheep, 70 quarters of beef, and many other miscellaneous kinds of fresh meat and provisions, as tongues, oxtails, poultry, and so forth. The whole of this was taken aboard at Melbourne, having being killed and frozen ashore. It is carried alongside in lighters, and being thus temporarily out of the cold chambers it becomes slightly thawed in the transit, feeling to the hand perceptibly softer than when exposed to the fresh air; but the interval is too brief to have any permanent effect, and the whole is quickly consigned to its resting-place. There has been, we learn, on the voyage no extraordinarily high temperature except for one day on first sighting the African coast after crossing the Indian Ocean. In the Red Sea it averaged only 90 degrees in the shade. But a very little examination of the practical working of the Refrigerator, and its results, soon convinces the visitor that the temperature of the external air is really a matter of complete indifference. The hottest sun that ever shone down from a tropical sky would still leave the meat rooms of the Orient cold as the air of a bright, hard, frosty day in the coldest winter of these latitudes.

Descending into the great engine rooms, under the conduct of Mr. Scott, the chief engineer, and making our way through a narrow aperture at the back of these gigantic objects into a smaller room, we found the little engine yesterday noisily at work, as it has never ceased to work one hour of day or night since its cargo of meat came aboard in the Australian port. By holding our coat tails prudently gathered up and edging in between the working machinery and the walls we were able to reach the narrow entrance of the first meat store and to enter the confined space, closing the door again behind us. The cold air was still rushing in through a square hole in the timber a little above our heads; but my companion shut it off for a moment in order to lessen the noise, and waving his lantern enabled us to see around the wooden partitions a number of huge frozen calico bags, in which the stiff carcasses of frozen sheep were carefully packed away. The thermometer here showed a temperature of 11 Fahrenheit; that is, 20 degrees of frost, which is considered sufficient for practical purposes. This is, however, a place of minor importance, being only that in which some 90 sheep, 122 quarters of beef, 11 pigs and other fresh provisions taken in at Sydney and frozen aboard for consumption on the voyage have been stored. The square zinc boxes, each holding about four gallons of milk—what remained being as good, we are assured, as when taken from the Australian cows on the morning of the vessel's sailing—further attested by the flinty hardness of their contents the efficiency of the cold current. This chamber, however, is necessarily subject to frequent visits, and must, one would suppose, occasionally lose something of its cold. Anyway, the Arctic condition of the temperature was far more strikingly indicated to the eye as we unbarred an inner door and entered the great stores devoted to what is distinguished as the 'cargo meat'. Here the white, snowy particles—for no system can deprive air entirely of moisture—had settled on the timbers and gathered on the wall till the whole had become touched as with the heaviest of hoar frosts, and was sparkling at numberless points in the light of our lamp. The gloom and silence of this receptacle, in which the great frozen cotton bags, with their contents, leaning against the walls and heaped up to the roof scarcely left room to pass, strike one the more as the wooden door is closed again. The stream of cold air was here, moreover, continuously pouring in through a hole in the woodwork of the partition; but though the thermometer marked 22 degrees of frost, it was curious how little one was sensible of the extreme cold; though, from fear of bronchial attacks, it is deemed advisable to keep the mouth closed. On procuring a sharp carving-knife and loosening one of the bags, it is found impossible for the strongest wrist to make even a mark upon a leg of mutton; and no wonder, for a blow with a heavy hammer on the same joint only gave out a sharp sound as if we were striking upon solid stone.

On the economical aspects of the system we are unable of course to offer any opinion; though the mere fact that sheep may be bought in Sydney at from eightpence to a shilling a stone of eight pounds can hardly leave a doubt of the profitable character of the transaction.

EDITOR'S TABLE.

On of the most stormi Municipal meetings ever held took place yesterday, the question in dispute being the proposed reform in the 'Reglamento' about the height of the houses. Mr. Villegas moved as a prior motion to the report of the Committee that the Board decide whether or not it is authorized to break a law at present in force. Dr. Bosh seconded the motion; Mr Mulhall objected to the form and language of such a motion, as insulting to the understanding of the very members themselves. Mr Villegas insisted on his motion; a protracted and angry discussion ensued; the Lord Mayor ruled with Mr Mulhall that the language was offensive and not in proper form, and refused to put the motion in such a form. Whereupon Messrs Villegas, Bosh and Lareta rose to retire, leaving the board without quorum' the whole debate was a scene which it is difficult to depict, but the minority won the day by leaving the board without a quorum.

We call the attention of all our friends, the sheepfarmers, to a most interesting paper in another column on Frozen Mutton. It means millions and millions in their pockets, and will be carried out in the Plate next year. Sheep will then be worth 150 mls each.

The reception of the remains of the late Don Felix Frias on Wednesday evening was a very solemn affair. There were over 200 persons on the mole at the hour appointed. The little steamer Resguardo, on board which the Committee had gone out to the San Martin to receive the remains, steamed slowly in, with the Argentine and French flags at half mast. The river was so low that she could not get near the mole, and the coffin was placed in the Capitania gig, but neither could this small craft reach the mole, and six sailors, up to their waists in the water, half carried and half pulled the craft to the mole through the mud. From the mole head the coffin was carried to a hearse in waiting in Paseo Julio. The gentlemen to whom the 'cordones' had been allotted then formed on each side of the hearse, which proceeded to the Cathedral, where a large lay and clerical assemblage, headed by the Archbishop, received the honoured remains, which were conveyed to a splendid catafalque. A religious service which lasted half an hour was then sung. For fully two hours crowds passed and repassed before the coffin, and only left when the doors of the church were closed at 10 o'clock p.m. Yesterday a solemn funeral Mass was celebrated at 7 a.m., and the remains conveyed to the Recoleta Cemetery.

The National Senate has done the proper thing in throwing out the Bill, so modestly proposed in the Deputies, to increase the salary paid to 'our noble selves' from 3500 to 5000 pats. It is to be hoped that the Lower House will let the matter drop now. With an estimated national expenditure of 28 millions pats next year, the less said about increasing the pay of those who voted such estimates the better. We perceive with great pleasure that Mr Unzue has handed all his salary for legislating to the Lord Mayor, for the Asilo de Mendegos £700. How many imitators will be have in the Chambers?

The funniest thing ever heard of in provincial affairs has cropped up at Tandil. The people down there are boiling with anxiety to pay their taxes (wonderful people!) especially that peculiarly just and popular impost, Contribucion Directa: but there are no clerks in the public offices to receive the money. The Government ordered a collector from a neighbouring town to go to Tandil to receive the cash, but he happened to be in jail for tampering with the public 'tin,' so lost the chance of another 'haul' at Tandil. We take this news from a colleague, so cannot so whether it is the truth, half the truth, or anything but the truth, but it's funny 'tout le meme.' How the two poor horses can have managed to go the long round by Calle Mexico and reach Almagro alive again we cannot conceive. We feel certain that Messrs. From Nov. 30th, and until further notice the National Offices will receive the Notes of the Provincial Bank for their written value.

ON 'CHANGE.

Dec. 29th

Patacones	25.—
Cedulas A	100
National Bank Shares	121⅞

Another very warm day on 'Change, and little doing in the gold market. Some 42,000 pats were sold cash at 25. Those who have to 'cassar' before the end of the month manage to get one cent over premium. For end of Feb. 20,000 pats were sold at 25.10; this sale means nothing.

The Cedula market was very dull, and operations are at a stand still. There are plenty of buyers at 99⅛, but no sellers. The weakness notable yesterday influenced many buyers, but no Series A could be had under par; 5,000 were sold to day for end of January at 100. In Series E there is nothing doing. There has been some talk of consolidation of Cedulas A into Series E, but the rumour amounts to nothing.

There was a good deal of animation in the National Bank share market, but prices did not maintain last night's firm rates. For cash the market opened at 122½ and closed at 121⅞. For the day after to-morrow, end of month, 2,000 shares were sold at 122⅛. The liquidation on Saturday is expected to pass off very quietly, and the feeling of the market points that way; although several have sold at 'descubierta', in fact, little importance is attached to the liquidation. Close on 2,000 shares were sold for end of January at 124⅛, closing at 124. The market was heavily beared to-day, but prices did not fluctuate much, and most of the sales on the black board were very small amounts, shewing the reserve in the transactions and how the brokers are trying to feel their way. Many let their shares go to weaken the market, and buy in heavily afterwards.

In National stock there was nothing done during official hours.

In exchange there is very little doing.

The sales at the ring were—

There are so many steamers in port that the Resguardo has not enough "guardas" to send on board them. Freights are naturally very active and the shipment of hides calls the attention of all. Calles Rivadavia and Piedad were this afternoon lined with carts from the barracas. The artistas in the Once deserve the thanks of shippers, as freights would have risen way tremendously but for their purchases.

The Herschell has arrived in Montevideo, and leaves to-morrow for this port.

Advices from several parts of the Province corroborate the news as to the injuries suffered by wheat and flax growers during the late heavy rains. The weather has been extraordinary of late, the rains not lessening the great heat in the least.

The Cynthia of the Clyde line is full.

The heavy rains since the beginning of the week have greatly interfered with the regular business in the wool Plazas. A French firm has entered the Once and has bought in the three last days 30,000 ar. of wool. These purchases are attributed to favorable advices as to the yield in Europe, and show that the depression telegraphed from Havre and Antwerp arises from the heavy arrivals of wool in those markets. The purchases in the Once made by some French artistas have given a firmer tone to the market of late, and have interfered with many orders received here, advising parties to buy under reduced limits. Good wools are in demand, while middling and heavy kinds are quite neglected. The wools arriving from the West are good, and it is remarked that many brokers, 'habitues' of the South Plaza, arrive regularly every morning in the Once and buy up several lots.

A sale of 10,000 salted hides is reported at 42½, payable in Montevideo.

Mr G. Beaumont was welcomed on 'Change to-day.

The arrivals in the Once these last few days have been:
Monday 9,000 arr.
Tuesday 16,000 do
Wednesday 28,000 do

Prices very firm and as much is $90 has been paid for good lots from Las Heras. Lambs 65 to 75$m/c.

At afterhours nothing was done in Cedulas or gold. The business in National Bank Shares did not amount to much and prices hardened, the sales were limited to operations for end of the present month at 122½; the market closed at 122⅞. Sellers there were few, and no sales whatever were done for the end of January.

Exchange may be quoted at 50⅛ to 50⅜; few take s and little business done.

There is a good deal of enquiry in the market for linseed, but holders ask too high prices, to leave any profit to the exporter.

The Buenos Ayrean leaves to-morrow for Havre with a full cargo; she takes from here
6,100 bales of wool
3,000 sacks of maize
From Montevideo—
9,000 salted hides
600 bales of wool
25,000 horns

This is the largest cargo of the season; and as the Buenos Ayrean is a very fast ocean-steamer we inform our readers that her mails by the Post Office close at one o'clock to-morrow (Friday); furthermore there will be a supplementary mail on Saturday till 4 o'clock for correspondence to be sent for her by Montevideo. We wish her gallant captain MacLean a pleasant voyage.

The Grecian is expected in the river to-morrow.

The Ocean King sails a full ship to-morrow for Antwerp; she takes—
3,100 bales
400 tons of maize
1,150 dry hides.

Messrs Forrester & Co. have taken new and splendid premises in Calle Florida, No 97, between Piedad and Cangallo, and began moving yesterday; we can wish the firm no better luck than the same business prosperity that they enjoyed in their old quarters. The new premises are splendidly fitted up, well lighted and replete with every accommodation for merchandize and customers.

On the 1st Jan. the Municipality will take over the Mercado del Plata, and yesterday the officers were named provisionally.

To-day the last signature was put to the arrangement with Mr Ghiraldez; the affair gives but 30 p cent to the creditors, but on that basis it is now closed.

The Sales at afterhours were—

Dr Jorge, President of the Western Railway, has come in the Orenoque; 300 emigrants are also expected. The Europa, left Montevideo, and brings a heavy batch of emigrants also to B. Aires.

The str. Villa de San Nicolas has arrived in Rosario.

It is said that the Lloyd Argentino intends engaging a further steamer for the Rosario and Campana route.

The Ital. barque Amalia has been chartered to load lino in the Boca at 22 francs and 10 o/o.

The market approves of the attitude of the National Senate, refusing to sanction the increase in the pay of the Deputies. It is to be hoped that when discussing the budget the Senators will make a clean sweep of all increased salaries and extraordinary expenses.

The Leibnitz has brought to the National Mint eight cases of bar gold.

Mr Calvo's letter in the *Prensa* attracted much attention; however, patriotic his calculations may be, they are not sound enough for such a very serious bill as the budget. The revenue may increase 10 o/o, but the Deputies should base their figures on more economy in the Government and less revenue in the Custom House. The present budget only tends to legalise deficits and plunge the country into further indebtedness; the Senate should reduce the expenses of next year by 5,000,000 fuertes.

The Orenoque brought 10,000 pats for a Montevidean firm.

The National Government has approved of the measurement of the 7th section made by engineer J. A. Lagos. This decree means that all those who have bought lots may now claim their title deeds.

Messrs C Grieber & J Mantel have requested the Camara Syndical to be admitted as members of the Bolsa.

El Jueves 19 de Enero
A las 3 p.m.

Rematarem os a la mas alta postura y dinero de contado pasando la base arriba indicada por orden terminante de sus propietarios y por liquidacion de sociedad estos magnificos campos situados en el Partido de Bahia Blanca, y que podemos reputar sin exageracion alguna los mejores, en cuanto a pastos y aguadas permanentes de aquella localidad; campos poblados hace mas de 31 años.

Los Manantiales—(Plano A)

LOTE No. 1—Una suerte de estancia o sean 3/4 legua con frente al Naposta Grande arroyo de agua cristalina, permanente y dulce; linda por el N. Este con D. Cisto Laspiur, por el Sud, Oeste y Nor Oeste con Jorge Clarac; tiene una poblacion construida de piedra y barro con techo de fierro de 4 reales por vara cocina con techo de paja y un corral de piedra para ovejas, grande y bien situado.

LOTE No. 2—Se compone de 4½ leguas mas o menos sobre el Naposta y linda por el N. O. con los Sres C Heusser Arce y Chanlini; por el N. E. tes con el lote num. 3, y por el S. O este con Cuquet, Bajo Hondo y el Estado. Tiene en el Centro del campo, la Laguna de Manantiales y el arroyito del mismo nombre: las poblaciones son: sobre el Naposta grande uno de dos piezas de material y un pequeño galpon de lo mismo; otro de dos piezas, uno de adobe crudo y la otra de piedra con un gran corral de piedra para ovejas.

La poblacion de los Manantiales se compone de tres grandes piezas de material de adobe crudo con techo de tabla y fierro; a mas dos puestos construidos con los mismos materiales que estos ultimos.

LOTE No. 3—Lindero con el anterior y se compone de 3 leguas aproximadamente con frente tambien al Naposta y fondo hasta el Bajo Hondo; tiene tambien una laguna 'Los Salados', una poblacion sobre el arroyo de una pieza de piedra como las anteriores y dos poblaciones de adobe crudo con techo de fierro

El total de estos campos, conocidos por los Manantiales dista dos leguas y diez cuadras desde el Esquinero Oeste a la plaza del pueblo de Bahia Blanca y su superficie total segun la reciente mensura practicada por el agrimensor D. Federico Gomez Molina, se compone de 8 leguas cuad. mas 528 cua. cs.

La calidad de la tierra es en todas partes vegetal, arenosa. hasta una profundidad que varia entre media y tres cuartas vs. pero se nota de una manera bien clara la fecundidad de ella, en los parages donde ha sido removida ha brotado subitamente y en abundancia el trevol de carretilla y el alfilerillo, ambos pastos tiernos y dulces.

Aguadas—Tiene el Naposta Grande, las Lagunas, Los Manantiales y Saladas y el arroyito Los Manantiales.

Ademas, se encuentra el agua a diversa profundidad en este campo a consecuencia de los accidentes del terreno y que varia desde 1 hasta 13 metros de profundidad.

Pastos—Los pastos son mezclados, encontrandose el alfilerillo, trevol de carretilla, cola de zorro, pasto duro, flechilla, vinagrillo, 14 de pampa, cebadilla y macadieu, predominando en un 80 c/o el trevol, alfilerillo, pasto duro y cola de zorro.

Este campo es apropiado para hacienda lanar y vacuna, indistintamente, la cual se encuentra en tal estado de gordura que se necesita trabajo encontrar animales que sirvan para el consumo.

Nueva Roma—(Plano B)

Se compone esta fraccion de tres y tres cuartas leguas cuadradas sobre el arroyo Sauce Chico y sus linderos son por el N E Juan y Eduardo Vidal, Francisco Ceico, por el S E. Francisco D Bozzaur, por el N O los mismos Juan y S Vidal y por el S O. el Sauce Chico, dista este campo del Esquinero Este 4½ leguas de la plaza principal del pueblo Bahia Blanca.

PASTOS—Estos son en general cola de zorro pastos duro y carretilla, existiendo unicamente en sus bajos y muy principalmente en los comprendidos por el arroyo Sauce Chico y Saladillo, Lazaga y Garcia, con gran abundancia el trevol de olor, alfilerillo, mostaza y te pampa Este terreno es apropiado por su mayor extension a la cria del ganado vacuno.

Calidad de la tierra: es semejante a la de los Manantiales y se nota tambien claramente la fecundidad de ella.

AGUADAS—Tiene el Sauce Chico arroyito permanente de agua dulce y cristalina, tiene ademas dos Saladillos o arroyitos.

Los vertientes, debido a lo accidentado del terreno, se encuentran desde los 40 centimetros hasta los 11 metros de profundidad.

La venta de esta fraccion se hara de la manera siguiente—

Lote No. 4—Compuesto de una y media legua cuadrada.

Lote No 5—Una suerte de estancia o sean tres cuartas leguas con opcion a los Lotes No. 6, y 7, cada lote de ½ leguas.

Creemos de nuestro deber llamar la atencion de los estancieros sobre estos magnificos campos que como ve por los informes del agrimensor son de primera calidad.

Su situacion no puede ser mejor, distan apenas 2½ leguas del Puerto de Bahia Blanca, destinado a ser el mas importante en toda la costa Sud, de donde podran embarcarse directamente todos nuestros productos de la vasta campana Sud de la Provincia.

El flete dado alli al riachuelo vale unicamente $3 por arb. de lana y enfardilada la mitad.

Ademas es publico y notorio, la prolongacion del ferro carril del Sud desde el Azul a este punto, asi que puede decirse con seguridad, que estos campos en pocos anos valdran $600 a 800,000 la legua.

Por planos e informes impresos, ocurran a nuestra casa Alsina 78, desde el 20 del corr. en adelante.

The Leibnitz's Mails.

London Dec. 3rd.

Agitation in Dalmatia is reported as increasing, and a formidable force of Austrian troops is being concentrated at Cattaro.

Our Paris Correspondent sends some particulars of a rudely brutal attack made on Mdlle. Sarah Bernhard as she was returning home after a performance in Odessa. A furious crowd gathered round her carriage, and, amid cries of down with the Jewess!' 'Out with your money!' threw stones at the vehicle. The coachman, however, was able to break away from the crowd, and the distinguished actress reached her hotel in safety; but here another crowd was gathered. Mdlle. Bernhardt threw some jewels she had been wearing among them, and while these were being scrambled for entered the house. It was past midnight before quiet was restored.

Emigration—more especially its recent considerable increase—was the subject of debate in the German Reichstag yesterday. Some deputies urged the necessity for affording greater protection to emigrants, but Government seemed against entertaining the question.

His Holiness the Pope, at a Consistory held yesterday at the Vatican, delivered an allocution on the lives of the four holy men about to be canonised. The cardinals and other ecclesiastical dignitaries present were asked if they approved of the canonisation, and all answered in the affirmative.

The Spanish Chamber of Deputies has decided on taking into consideration a modification of the Parliamentary oath, so as to avoid doing violence to the religious convictions of any one.

Defending and explaining the military estimates in the Chamber of Deputies yesterday, the Italian Minister of War urged the construction of railways important from a military point of view, if for no reason but to make an Italian alliance properly appreciated. The estimates were approved by an enormous majority.

It appears from the official returns for October just issued, that in the United States the excess of exports of merchandise over the imports was $9,261,536, while the imports of gold and silver coin exceeded the exports by $7,163,013.

Lord John Manners was yesterday elected Master of the Shipwrights' Company for the ensuing year, while Sir T. Brassey, M.P., was appointed a member of the Court of Assistants. An encouraging report was presented as to the International Shipbuilding Exhibition to be held in London next year under the auspices of the company. Speaking at the banquet in the evening Sir T. Brassey went into some details to show that the Navy was at present in a thoroughly efficient condition.

An extraordinary robbery has only just been brought to light at Dunecht, the seat of the Earl of Crawford and Balcarres, near Aberdeen. It is nothing less than the theft of the body of the late Earl, who was buried in the vault at Dunecht about six months ago. The remains, it seems, must have been removed some months ago, but though an anonymous letter was sent to Lord Crawford's local agent stating that the body had been taken away, no attention was paid to it until quite recently, when appearances at the vault compelled investigation, and so the truth was at last discovered. The police are, of course, inquiring into the business, but they are not communicative, and affect an air of mystery.

It is stated that the Empress Eugénie, who was to have paid a visit to the Queen yesterday at Windsor Castle, was confined to the house at Prince's Gate all day in consequence of indisposition, arising from a fall sustained on Thursday while indoors.

The marriage of his Royal Highness Prince Lepold, Duke of Albany, will, it is understood, take place at St. George's Chapel Windsor, in March next.

The report is authoritatively contradicted that the Hon. Evelyn Ashely, M.P., intends to resign the Secretaryship to the Board of Trade, Mr. Bradlaugh's case is once more under argument. Another application for a new trial was partly discussed in the Queen's Bench Division yesterday. It is the old question as to whether the writ ought not be held to have been technically issued before the hour at which Mr. Bradlaugh voted in the House of Commons.

Lieutenant Lonergan of the 66th Foot, has been fully committed for trial on a charge of stealing various articles of jewellery from the house of Mr. Hugh Wegnelin, Ebury street, Belgrave-square. The prosecutor sought to witdraw the charge, as it would be ruin to the prisoner, but the magistrate declined. He had no option but to perform a public duty, however painful the case might be. Lonergan was admitted to bail.

STATE OF IRELAND

What at one time threatened to be a very serious riot occurred last night at Limerick, between a party of the 76th Regiment, who had arrived in the course of the day, and a number of civilians. The soldiers were in a public house near the railway, when they were set upon by the civilians and badly beaten. A party of soldiers under arms came to their assistance, and at the point of the bayonet cleared the streets, and conveyed the soldiers to their barracks. Subsequently a large party of constabulary, armed with rifles and revolvers, arrived. The town was again quiet this morning.

Some nights since Mr Hogan, steward to Mrs Hegarty, Kilcattrimhouse, Borris, county Carlow, was fired at through the basement window of that lady's residence while preparing for bed.

The tenants of Lord Greville and Mr Coddell, in the neighbourhood of Boyle, numbering 800, refuse to pay rent, except at a reduction of 30 per cent.

The inquiry into the death of the second woman, Mary Deane, killed in the Belmullet affray, was opened and concluded yesterday. The sub-inspector and head constable swore positively that Sullivan had not discharged his rifle all that day; that when the firing ceased he reported that he had lost four rounds of ball cartridge out of his pouch, and that in consequence his rifle had been most minutely inspected and found perfectly clean. The jury returned a verdict of 'Wilful murder' against Constable Sullivan by 15 to four against. The jury and the counsel for the next of kin cheered loudly on the announcement being made. The Crown solicitor, Mr Bolton, said that the verdict was illegal in several respects, and he would move for a quashing of the indictment in the Court of Queen's Bench to-day.

Last night several thousand persons, with bands and torches, accompanied 2 Land Leaguers through the city of Derry as a token of sympathy. The men had been convicted at petty sessions for using illegal language.

A Kilkenny correspondent reports that yesterday the Kilkenny hounds were stopped at Castlecomer by a crowd of country people. While hunting near Nenagh yesterday, the Youghal, county Tipperary, hounds were stopped by a large mob, who stoned the hounds and huntsmen, and peremptorily refused to allow the sport to be continued. At a largely-attended meeting of the members of the Kildare Hunt Club, held in the Town-hall, Naas, yesterday, it was unanimously decided to continue the hunt.

THE TRIAL OF GUITEAU.

Philadelphia Dec, 1.

Guiteau's cross-examination, which began on Wednesday, was continued to-day, but before resuming Guiteau made an appeal to the audience to send him money in the interest of justice for his defence. If they did not want to be known, they could send their subscriptions anonymously to Mr Scoville. Judge Porter conducted the cross-examination. Replying to numerous questions, Guiteau said that physically he was a coward, always keeping away from personal danger. Morally he was as brave as a lion, when he thought that the Deity was backing him. The Deity influenced him to remove the President. In his opinion the doctors killed the President. He thought the acts of Jones and Mason in attempting to shoot him were wrong and they ought to be punished unless they can show inspiration by the Deity. Guiteau became greatly excited, he pounded the desk when pressed for answers, and finally became obstinate, refusing to answer. Having said that he believed in the Decalogue. Judge Porter asked, "How about 'Thou shalt not kill'"? Guiteau became exceedingly violent, refusing to discuss the subject. He refused to answer many other questions, saying, "I decline to discuss that with you." He said that the jury's simple duty was to determine whether or not the Deity inspired him. Is must be distinctly understood that the President's removal was an act of the Deity."

Guiteau was questioned about his conduct at various boarding-houses. He became uneasy at his bad conduct being shown, and finally said, "I decline going into this boarding-house business. When I have money I pay my debts; when I have none I cannot pay them." The shrewd questioning drove Guiteau from one position to another, till confronted by the testimony of his own witnesses, he would unhesitatingly pronounce it false. Once he said, "Anything I swear to, Judge, is true. You can put that down as a fixed fact." Being pressed about how he proposed raising money, he said, "I intend borrowing. I will tell you, Judge how I borrow money. It may be, of service when you want to borrow for yourself. I do not lie nor sneak, but go right up to a man and ask for what I want. If he has it, perhaps on the impulse of the moment he will give it to me; if not, that is all

h... Guiteau stuck closely to his familiar story. He replied scornfully to what he called Judge Porter's loose talk. He finally became indignant at Judge Porter's using the word 'murder', shouting fiercely, "You seem to delight in using the words 'kill' and 'murder'. There is no use in whining that way. The mere outward fact of how I removed the President has nothing whatever to do with this case."

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
